**5 min 32 min 37 min 2/10 9 12 18**

600g of potatoes  
400g of salt cod  
100g of heavy cream  
50g of olive oil  
+/- 20g of butter  
10g of lemon juice  
2 cloves of garlic  
Flat-leaf parsley  
Pepper

**<span itemprop="recipeIngredient">600g of potatoes<br/></span><span itemprop="recipeIngredient">400g of salt cod<br/></span><span itemprop="recipeIngredient">100g of heavy cream<br/></span><span itemprop="recipeIngredient">50g of olive oil<br/></span><span itemprop="recipeIngredient">+/- 20g of butter<br/></span><span itemprop="recipeIngredient">10g of lemon juice<br/></span><span itemprop="recipeIngredient">2 cloves of garlic<br/></span><span itemprop="recipeIngredient">Flat-leaf parsley<br/></span><span itemprop="recipeIngredient">Pepper<br/></span></b>**

Â»

Put water in the Thermomix bowl.

Â»

Peel the potatoes, cut them into pieces, and place them in the steaming basket, then close the bowl with the lid.

Â»

Place the desalted salt cod in the Varoma dish and place it on top of the Thermomix lid.

Â»

Set for 20 minutes at speed 1 and Varoma temperature.

Â»

When it beeps, keep the salt cod and potatoes warm, then empty the water from the bowl.

Â»

Put the garlic clove in the bowl and blend for 5 seconds at speed 5.

Â»

Add 10g of oil and cook for 5 minutes at 70°C and speed 2.

Â»

Preheat the oven to 200°C.

Â»

Pour the potatoes, salt cod, heavy cream, lemon juice, flat-leaf parsley, and pepper into the Thermomix bowl and program for 2 minutes in reverse function. Meanwhile, pour the olive oil through the lid opening.

Â»

Pour the mixture into a gratin dish.

Â»

Make grooves with a fork and add small pieces of butter on top of the salt cod brandade.

Â»

## Salt cod brandade with the thermomix

Bake for approximately 10 minutes, until the surface is golden.  
Enjoy this delicious fish dish made with Thermomix. Yum ;)
