Discover the recipe for a fragrant Epiphany cake with pear and chocolate, the Thermomix King's Cake :

Â»

Preheat the oven to 240°C.

Â»

Put the chocolate pieces in the bowl of the Thermomix and blend for 7 seconds on speed 8 to reduce it to powder.

Â»

Add the butter and cook for 3 minutes at 80°C on speed 2.

Â»

Add the granulated sugar, almond powder, and 2 eggs, then set for 45 seconds on speed 4.

Â»

Roll out the first puff pastry sheet on a sheet of parchment paper.

Â»

Using a brush, moisten the edge of the pastry with water over a width of about 1 centimeter.

Â»

Pour the filling in the middle of the pastry.

Â»

Spread it out and leave a 1 centimeter border of pastry.

Â»

Peel the pear and cut it into thin slices.

Â»

Place each of the slices on the spread-out filling.

Â»

Don't forget to insert the fève (ceramic charm).

Â»

Place the second puff pastry sheet on top.

Â»

Press around the edges of the pastry and lightly roll the edges.

Â»

Using a knife, make V-shaped incisions on the edge and on the puff pastry.

Â»

Mix the egg yolk and milk in a bowl.

Â»

Brush the cake with this mixture.

Â»

Reduce the oven temperature to 180°C and bake for 30 minutes.

Â»

After removing from the oven, sprinkle the cake with chocolate chips.
