With the Thermomix TM31, TM5, or TM6, you will cook delicious compotes, like this apricot compote flavored with honey :

Â»

Peel each apple and remove the seeds. Cut them into quarters and place the pieces in the Thermomix bowl.

Â»

Wash the apricots, cut them in half, remove the pits, and place them in the Thermomix bowl.

Â»

Close the bowl and place the measuring cup, then set for 10s at speed 5.

Â»

Add the water, close the Thermomix bowl without using the measuring cup.

Â»

Set for 7 minutes at 70°C at speed 2.

Â»

Add the honey and set for 30s at speed 8.

The Thermomix is an excellent food processor for preparing your compotes. You will enjoy it. Yum ;)
